

An aerial photograph of a beach and ocean, overlaid with a semi-transparent teal filter. The image shows waves breaking on a sandy beach with many people swimming and surfing. The text 'Tutorial: Overview of FLHealthCHARTS' is centered in white.

Tutorial: Overview of FLHealthCHARTS

Convenient ways to view statistics

1. **Profiles & Dashboards** give you many statistics about a topic with just one click.
2. **Health indicators** are individual measures with trend graphs, quartile maps and data tables.
3. **Data Queries** let you filter data using your own selections.

The screenshot shows the FLHealthCHARTS website interface. At the top, there is a navigation bar with 'FLHealthCHARTS' on the left, 'Ask a Question' and 'Log In/Sign Up' on the right, and a '1' callout pointing to the 'Profiles & Dashboards' menu. Below the navigation bar is a header section with 'Community Health' and 'Powered by Florida's Bureau of Health Statistics'. A search bar is present with a 'Search' button and a '2' callout pointing to the 'Health Indicators' menu. The main content area is divided into several sections: 'CHARTS Login' with a 'Log In/Sign Up' button; 'Community Tools' listing 'Life Expectancy', 'Community Map', and 'Social & Economic Factors'; 'Profiles & Dashboards' listing 'Health Summaries', 'Injuries', 'Social and Behavioral Health', and 'Specific Focus'; 'Health Indicators' listing 'Topic Areas' (Chronic Diseases, Environmental Health, Health Resources Availability, Injury and Violence, Maternal and Child Health, Population Characteristics, Reportable and Infectious Diseases, Social and Behavioral Health) and 'Surveys' (Adult Behavioral Risk Factors, Pregnancy Risk Assessment Monitoring System, Youth Health Behaviors); 'Data Queries' listing 'Births: Counts | Rates', 'Deaths: Counts | Rates', 'Infant Deaths: Counts | Rates', 'Fetal Deaths: Counts | Rate', 'Marriages: Counts | Rates', 'Marriage Dissolution: Counts | Rates', 'Population Estimates', and 'Reportable Diseases'; 'Current Features' with a 'May 19 Is National Awareness Day' article; 'Focus On' with a text block; 'What's New' with a text block; 'Quick Facts' with a text block and a large number '86279'; and 'Estimated Births' with a text block and a large number '86279'. A '3' callout points to the 'Data Queries' menu.

Data comes from many sources

From AHCA to WIC and lots in between!

CHARTS aggregates more than 4,500 indicators from at least 30 programs, saving you the trouble of searching each individual site for data.

Data Updates

CHARTS is updated throughout the year as data becomes available.

A few data sets present the latest final data available even though they may be more than one year old—like hospitalizations and cancer incidence.

Query systems and some profile reports show provisional data that is updated daily or quarterly.

Some data update examples:

- **January – March:** Women, Infants and Children (WIC); foster children; child abuse; cancer incidence
- **April – June:** Florida vital statistics births and deaths, health-related data from agencies and programs
- **July – September:** HIV/AIDS cases, sexually transmitted diseases, birth defects, youth and adult risk behaviors (survey data)
- **October – December:** Florida population estimates, American Community Survey (US Census)

Homepage Features

1. Toolbar

- Home page
- CHARTS Tutorials
- Frequently Asked Questions (FAQs)
- Ask a Question
- Account Log In and Sign Up

2. Navigation

- Community Tools
- Profiles & Dashboards
- Health Indicators by Topic
- Data Queries
- Special Reports
- Data Sources and Updates

3. Featured Programs

- Monthly Current Features
- Data Spotlights

4. Featured Topics and Facts

- Focus On—Florida’s State Health Priorities
- What’s New on CHARTS
- Quick Facts
- Estimated Birth Counter
- Did You Know?
- Most Viewed Indicators

The screenshot shows the FLHealthCHARTS homepage. At the top right, a navigation bar includes links for Home, Training Resources, FAQs, Ask a Question, and a Log In/Sign Up button (callout 1). Below this is a large teal banner with the title 'Community Health Assessment Resource Tool Set' and the subtitle 'Powered by Florida's Bureau of Community Health Assessment and Vital Statistics'. A search bar with the placeholder 'Find data by topic' and a 'Search' button is located in the banner (callout 3). The main content area is divided into several sections: 'CHARTS Accounts' with a 'Log In/Sign Up' button (callout 2), 'Community Tools' listing various dashboards and reports, 'Profiles & Dashboards' listing health summaries and injuries, and 'Health Indicators' listing various topic areas. The 'Current Features' section highlights 'Prematurity Awareness Month' with a paragraph of text and a pagination control (callout 3). The 'Focus On' section discusses mental health. The 'What's New' section mentions 2023 Merlin data. The 'Quick Facts' section states that in 2022, there were 7,550 deaths from diabetes in Florida. The 'Estimated Births' section shows a counter for 188,695 births since Jan 01, 2024. The 'Data Spotlight' section features a line graph titled 'Hospitalizations From Chronic Obstructive Pulmonary Disease (COPD) in Florida' (callout 4). The 'Did You Know?' section provides information on using the search bar.

Health Indicator Page Features

1. Click to return to the homepage
2. A-Z list— see a list of available health indicators for this topic
3. Select from a list of topics with the dropdown box
4. Get links to reports containing relevant indicators
5. Get links to related resources— these are primarily external to CHARTS

The screenshot shows the FLHealthCHARTS website interface for the 'Chronic Diseases' page. The page layout includes a top navigation bar with links for Home, Training Resources, FAQs, Ask a Question, and Log In/Sign Up. A search bar is located in the top right corner. The main content area is divided into several sections:

- CHARTS Accounts:** A section with a 'Log In/Sign Up' button. Callout 3 points to this section.
- Community Tools:** A list of tools including Community Dashboard, Life Expectancy, and Social and Economic Factors.
- Profiles & Dashboards:** A list of profiles and dashboards including Health Summaries, Injuries, Social and Behavioral Health, and Specific Focus.
- Health Indicators:** A list of indicators including Chronic Diseases, Environmental Health, Health Resources Availability, Injury and Violence, Maternal and Child Health, Population Characteristics, and Reportable and Infectious. Callout 5 points to this section.
- Find an indicator:** A section with a search icon and a dropdown menu labeled '--Select a Chronic Diseases Category--'. Callout 2 points to this dropdown menu.
- More CHARTS report views:** A list of report views including Aging in Florida Dashboard, Behavioral Risk Factor Surveillance System Dashboard, Children and Youth with Special Healthcare Needs Profile, County Health Dashboard, Asthma Profile, Florida Youth Survey Dashboard, Health Comparison Profile, Leading Cause of Death Profile, Mortality Dashboard, and State Health Profile. Callout 4 points to this list.
- Related resources:** A section with a globe icon and a link to the Florida Cancer Data System (FCDS). Callout 5 points to this section.

Downloading Graphics and Data

Graphics and tables can be exported as PDFs to print or save.

Tables can be exported to Excel (.xlsx or .csv).
