About the FLHealthCHARTS.gov Infant Mortality Query System

The Infant Mortality Query System provides Counts and rates of infant deaths from 1989 to the present. Provisional data is updated every day at approximately 5:00 a.m. When final data is published for the year, the term "provisional" is removed and that data will not change. The data within this query system is sourced from the Florida Department of Health, Bureau of Vital Statistics.

Causes of death are provided for the international standard diagnostic cause groups (see World Health Organization) which are used to classify diseases and record many types of health and vital records including death certificates. In this system, if there are no values for the variable selected, then no data will be displayed. Where HIV disease is the cause of death and for combinations of death including this cause, only county-level geography is available. 1999 was the first year ICD-10 coding was used for infant death coding. For comparability, all infant deaths prior to 1999 in this application are classified as not applicable. Starting with 2003, the sum of the deaths from all counties will not equal the total number of resident deaths due to an unknown county of residence on some records.

Recorded Infant Deaths	Count	Rate	Infant deaths (0-364 days of life) in Florida, regardless of whether the decedent was a Florida resident
Recorded Neonatal Deaths	Count	Rate	Neonatal deaths (0-28 days of life) in Florida, regardless of whether the decedent was a Florida resident
Recorded Postneonatal Deaths	Count	Rate	Post neonatal deaths (29-364 days of life) in Florida, regardless of whether the decedent was a Florida resident
Recorded SIDS Deaths	Count	Rate	Sudden Infant Death Syndrome deaths in Florida, regardless of whether the decedent was a Florida resident
Recorded SUIDS Deaths	Count	Rate	Sudden Unexplained Infant Deaths in Florida, regardless of whether the decedent was a Florida resident
Resident Infant Deaths	Count	Rate	Infant deaths (0-364 days of life) to Florida residents
Resident Neonatal Deaths	Count	Rate	Neonatal deaths (0-28 days of life) to Florida residents
Resident Postneonatal Deaths	Count	Rate	Post neonatal deaths (29-364 days of life) to Florida residents
Resident SIDS Deaths	Count	Rate	Sudden Infant Death Syndrome deaths to Florida residents
Resident SUIDS Deaths	Count	Rate	Sudden Unexplained Infant Deaths to Florida residents

<u>130 Causes of Infant Death</u>	130 Selected Causes of Infant Death This application uses the Tenth Revision of the International Classification of Diseases (ICD) 130 Selected Causes of Infant Death to present the National Center for Health Statistics' selected causes of infant death. Because the ICD classification system changed in 1999 from ICD-9 to ICD-10, in the Infant Mortality Query

	System, causes of death prior to 1999 are not provided and all are classified as "not applicable". Details including the ICD codes are found in the table at the end of this document.
Ethnicity	Ethnicity of decedent Hispanic (Central/South American, Cuban, Mexican, Other or Unknown Hispanic, Puerto Rican), Non-Hispanic or Haitian (Haitian, Non-Hispanic or Haitian) Unknown
Race	Decedent's Race White Black Other (Other (American Indian, Chinese, Japanese*, Hawaiian*, Filipino, Korean*, Other races, Vietnamese*, Asian Indian*, Asian Other, Guam*, Samoan*, Other Pacific Islander*, More than one race*), Unknown (*These race choices became available starting in 2005)
Decedent's Disposition	Decedent's Manner of Disposition: Burial Burial at Sea Cremation Removal from state Donation Entombment* Hospital Disposition* Other Unknown (*These disposition choices became available starting in in 2005)
Leading Causes of Infant Death	Leading Rankable Causes of Infant Death The National Center for Health Statistics designated specific causes from among the selected causes of infant death, as eligible to be ranked as leading causes of infant death. This application uses the Tenth Revision of ICD, to present these leading rankable causes. Because the ICD classification system changed in 1999 from ICD-9 to ICD-10, in the Infant Mortality Query System, causes of death prior to 1999 are not provided and all are classified as "not applicable". Details including ICD codes and a crosswalk of the 130 infant causes of death to the leading rankable causes of infant death are included in a table at the end of this document.
Age	Age at time of infant death - grouped by Neonatal - deaths that occurred before 28 completed days of life. (<1 day, 1-27 days) Post-neonatal– deaths that occurred between 28 days and 364 days of life. Unknown - Unknown age at time of infant death
Recorded County	Florida County where the infant death occurred-

	Lists 67 counties
Decedent's Place of Death	Type of Place Where Infant Death Occurred: Inpatient Emergency Room/Outpatient Dead on Arrival Decedent's home Hospice Nursing Home Other Specified Place Hospital Unknown Status Unknown (New options starting in 2005)
Residence Census Tract (Infant Death Counts only)	Residence Census Tract by County is available for Florida residents only for 1995 forward. Census tracts are rolled up by county in the initial presentation which may be expanded to show census tracts. Census tracts are not available for provisional data. Data in this application are mapped to the US Census Bureau's census tracts and are displayed according to the years listed below. If census tracts persist from one period to another, those tracts will be repeated over multiple rows. 1995-2006: US Census Bureau's 2000 Census Tracts 2007-2019: US Census Bureau's 2010 Census Tracts 2020 forward: US Census Bureau's 2020 Census Tracts The link below provides a census tract and related demographic information based on a street address: https://geomap.ffiec.gov/FFIECGeocMap/GeocodeMap1.aspx

Residence City	Residence City by County
	    To view the cities in the list, use the arrow to expand a county.
	    For Florida residents, death rates are available by city for 2005 and forward and death counts are available by city for 1989 and forward. Cities included are for incorporated cities of 2,400 or more population. Deaths that occurred outside of city limits are included in a group called "Balance of County". Cities are rolled up by county in the initial presentation.

Residence County	Florida County of Residence
	    County where the decedent lived
	    Lists 67 counties

Residence State	The state of residence Includes US states and territories and Canadian provinces and Canadian territories.

Changes and Updates

May 22, 2023   Added description of census tracts used by year of data.
April 2023:   Updated document in accordance with FLHealthCHARTS style guide.
October 11, 2022: Updated ICD codes in accordance with NCHS Instruction Manual, Part 9, ICD-10 Cause-of-Death Lists for Tabulating Mortality Statistics, September 2020.
March 19, 2024   Added clarification that census tract level counts are available but not rates.
